Man3000 DHS (Pty) Ltd

Testimonial

A short testimonial with regards to the service and assistance received from Man3000dhs for the installation and utilization of the Man3000dhs Hosted Telephone Management system which was installed at ARWYP hospital on our Alcatel OXE telephone system. The hospital has around 10'000 individual calls per day, 7 days a week.

The Man3000 DHS solution has been running flawlessly for two years.

The solution allows us effective tracking of all aspects of our telephone usage.

- Assist in controlling cost
- Allows for performance management of switchboard operators
- Cost recovery from various tenants within the hospital

Man3000 are always prompt and efficient in dealing with any queries that arise.

The service level received for post-sale support and maintenance has been fast and efficient.

It is a pleasure dealing with professionals who are always helpful and friendly.

Regards

Penny Rudolph
Executive Personal Assistant
